Support the Generation of Participation in Democracy

Your support enables the development of sustainable, participatory institutions across the Americas. Currently, 100% of contributions go to fund research, field programs, and infrastructure through our Flagship Institute, Instituto Dourados. Once we can fund the first two years of operation of Instituto Dourados we may consider expanding GPD's institutional portfolio, allocating resources beyond just Instituto Dourados.

Opportunities to support other GPD Américas organizations will be announced as they become available.
